

Astronomy in and around Prague *Astronomie in und um Prag*

- **Sunday, September 19, 2004, 16 h and 19 h**
Meeting point for a tour to places of astronomical interest in Prague will be the city hall (astronomical clock) at **16 h**. Get-together in the restaurant „U knihovny“, Veleslavínova Street, Prague 1, Old Town, from **19 h**.

- **Monday, September 20, 2004, 9 to 17 h**
Colloquium in the Prague Academy of Sciences, Lecture Hall No. 206, 2nd floor, Room No. 20
Address: Akademie ved CR (Presidium), Narodní 3, Praha 1
(opposite the National Theater)

Conference fee: 20.- EUR,
partially covering the conference proceedings.

Coordinators of the meeting:

Guðrun Wolfschmidt, IGN, Hamburg University
e-mail: wolfschmidt@math.uni-hamburg.de,
Tel. +49-40-42838-5262, Fax +49-40-42838-5260
Prof. Dr. Peter Brosche, Observatorium Hoher List
der Sternwarte der Universität Bonn, D-54550 Daun
e-mail: pbrosche@astro.uni-bonn.de,
Tel.: +49-6592-2150, Fax: +49-6592-985140
Doc. RNDr. Martin Šolc, Astronomical Institute of the
Charles University, e-mail: Martin.Solc@mff.cuni.cz,
Tel. +420 22191 2572, Fax: +420 22191 2577.

Colloquium of the
Working Group History of Astronomy
during the international scientific meeting of
the Astronomische Gesellschaft (AG)
in Prague
Monday September 20, 2004

Lectures: Monday September 20, 2004

09.15 Welcome and Introduction

09.30 Alena and Petr Hadrava (Prague)
Astronomy in medieval Prague

09.45 Dr. Josef Smolka (Prague)
Tycho Brahe and Tadeáš Hájek z Hájku

10.00 Dr. Zdislav Šima (Czech Academy of Sciences)
and Jiří Valeška (Institute of Criminology Prague)
News in the Identification of Tycho Brahe's Handwritings

10.15 Klauďia Einhorn (Kuffner-Sternwarte Wien) and
Günther Wuchterl (Universitäts-Sternwarte Jena)
Keplers Astrologie und die Wallenstein-Horoskope

10.30 – 11.00 Coffee break

11.00 Rahlf Hansen (Planetarium Hamburg)
Kepler and the Star of Bethlehem

11.15 Dr. Armin Gerl (Regensburg)
Kepler, Galilei und die rudolphinische Wissenschaft

11.30 Dr. Ingrid Guentherodt (Konstanz)
„Augenschein“ and „Finsternisse“: the language of Maria Cunitia (1604-1664)

11.45 Prof. Dr. Franz Daxecker (Medical University of Innsbruck)
Christoph Scheiner's Investigations of the Physiological Optics of the Eye

12.00 Franz Kerschbaum und Thomas Posch (Institut für Astronomie Wien)
Kepler, Horrocks and the Transit of Venus in 1639

14.00 PD Dr. Dr. Georg Schuppener (Leipzig)
Jesuit Astronomy in Prague

14.15 Pavel Chadima and Martin Šolc (Charles University)
Astronomy and „Museum Mathematicum“ at Prague Clementinum College

14.30 Prof. Dr. Peter Brosche (Daun/Bonn)
Father David's Correspondence with Franz Xaver von Zach

14.45 Guðrun Wolfschmidt (IGN, Hamburg University)
Josef Petzval (1807-1891) and the early development of astrophotography

15.00 Izold Pustynnik (Tartu Observatory, Estonia)
Petzval Astrograph of Tartu Observatory

15.15 – 15.45 Coffee break

15.45 Guðrun Wolfschmidt (IGN, Hamburg University)
Christian Doppler (1803-1853) and
the impact of the Doppler effect in astronomy

16.00 Ivan Štol (Czech Technical University in Prague)
The Phenomenon of Doppler in Modern Science

16.15 Martin Šolc (Prague, Astronomical Institute of the Charles University),
Alena Mišková (Dept. of History, Charles University, Faculty of Education)
Czech and German Astronomers at the Prague University
I. German Part of the Prague Universitas Carolo-Ferdinandea (1882-1920)
II. Deutsche Universität in Prag (1920-1939) and
III. Deutsche Karls-Universität in Prag (1939-1945)

16.30 Mitgliederversammlung des Arbeitskreises Astronomiegeschichte
(Gäste sind willkommen)
